The screenshot shows a web application interface for SchoolTry Model College. At the top, there is a navigation bar with the school's name and a logo. Below the navigation bar, there is a section for the report card, which includes a table with student and class information. Below the report card, there is a section for the cognitive report, which includes a table with subject performance data. At the bottom, there are sections for the teacher's and principal's comments.

SCIENCE	27	50	77	A	77	66	1 st

Principal's Comment:
Excellent performance, do not relax and keep it up.

Teacher's Comment:
Not bold enough to answer questions in class, whenever he knows the answer, it advise parent to allow him to express his mind.

BENEFITS

Increases Productivity

The reason for the increase in productivity is decreased time to maintain the track records and increased accuracy in organizing the data.

Best Student-Teacher Collaboration

Using SchoolTry leads to student-teacher and parent collaboration beyond the classroom. This increases the interaction between the staff and the students. The interaction happens over the application (online) where the teacher is available to answer queries of the students. It also facilitates a friendly atmosphere in academics.

Access From Anywhere

The software can be accessed from anywhere and at any time. A record of everything can be kept due to its easy accessibility. It also facilitates providing immediate information to all the stakeholders.

Reduction In The Cost Of Communication

All the essential data is available on the software and hence there is a reduction in the cost of communication, which includes calling and sending out messages to let the parents and student know about the various activities within the school.

Reduces Workload

The workload upon the staff members is reduced as the teachers need to be technology driven. This leads them to work upon SchoolTry and send out the required data to the students and their parents over the system. It reduces the workload from the teachers and saves time.
